Another disaster hits Tajikistan

This spring mud streams flooded the south of Tajikistan. As a result 20 people died, 3000 Tajiks were displaced and left 15000 people without water and sanitation. This disaster is the result of the massive melting of the glaciers an effect of the global warming. The Red Cross requested assistance from the international community.

Lakkon Hospital

The first 6 months of this year Dr. Rustam, the director of the hospital, received US \$1600,-. He has spend US \$1500,- on food and US \$100,- for recreational activities.

Children's Centre

TSP managed to establish contact with Dr. Zebo, the new director of the Children's Centre. Dr. Zebo is a psychiatrist by profession and teaches at the medical faculty of Dushanbe. Dr. Shokir has agreed to lend his support to Dr. Zebo in the near future.

User organisation Hamdilon

This year Hamdilon received € 3000,-. This enables them to continue their activities for the first 6 months. They are still very active in searching for additional funds. Hamdilon focuses on 2 main activities, the set up and continuation of a day activity centre and the legal support for users. Twinning process has started with the DAC (Day Activity Centre) "Jacob van Lennep kade" in Amsterdam. For detailed information we refer to the TSP website under "news" and "reports".
